

IEEE CQR

Session 4 - Rapid Fault Resolution in Virtualized Networks

Bob Lesnewich

Director

908-748-2267

rlesnewich@appcomsci.com

May 13, 2015

- *The desire and need for virtualized networking creates a new set of challenges –*
 - *Our session will discuss what some of these challenges are and some approaches / concepts of how to mitigate them.*

Rapid Fault Resolution in Virtualized Networks - Presenters

- **Chris Emmons, Verizon Wireless**
 - *Rapid Fault Isolation in Virtualized Networks*
- **Kelly Krick, Ericsson** [next man up : Kelly for Mike; Mike for Spilios]
 - *Classification of Internet, Cloud and SDN/NFV Service Outages: A Real Challenge* [a Spilios Makris production!]
- **Ali Kafel, Stratus**
 - *Achieving Availability and Resiliency in OpenStack for NFV and the “Cloudification” of Telco*

APPLIED **COMMUNICATION** **SCIENCES**

Powerhouse Research. Practical Solutions.
