

IEEE 2015 CQR
Emerging Technology Reliability Roundtable

***Network Transformation and
Its Impacts on Reliability***

David Lu

AT&T

VP - Business Solution Development

david.lu@att.com

Charleston, South Carolina

May 11, 2015

Discussion Outline

- Network Virtualization and Its Impact to Network Reliability
- SDN and Future Business Model and Operation Model
- Reliability Implications by Open Source and New Software Ecosystem
- Real Time Data Analytics & Adaptive Network
- 5G Broadband and Next Generation Killer Apps
- Cyber Security, PSI Protection, and Service Reliability
- Digital User Interaction
- ...
